February 2026

February 1st to 7th

Olive Tree Centres Programme

For the Mission: Lord, we lift up the Olive Tree Programme to You. Guide its work in providing emergency relief, psychosocial support, and trauma care. May it be a place of education and belonging for every refugee who enters.

For Restoration: We thank You, God, for the practical help already given to refugees. We praise You for the lives being changed and for the restoration of hope, dignity, and new possibilities.

For Provision: We thank You for the incredible generosity of our donors. It is through their gifts that our centres remain open; bless them for their partnership in this work.

For Expansion: Father, we pray for the ability to open more centres. We ask for the resources to create safe spaces where families can begin again, rooted in community and filled with hope.

For the Volunteers: We pray for all who volunteer at our centres. We especially lift up those who are refugees themselves; grant them strength and grace as they serve others out of their own journeys.

February 8th to 14th

Gaza and the West Bank

For Partnerships: Lord, we pray for our work in Gaza and the West Bank. Bless our partnership with the Diocese of Jerusalem as we seek to serve those in need.

For Institutions: We pray for the churches, schools, and healthcare providers through which we work. Protect and strengthen every staff member dedicated to these vital institutions.

For Medical Workers: We pray specifically for the local nurses and doctors. Support them as they serve their communities under extreme pressure and tireless conditions.

For the People: God, we pray for people of all faiths who have been impacted by violence and upheaval. Bring comfort to the grieving and peace to the fearful.

For Continuity: We pray that through the ongoing generosity of our donors, we will be able to sustain our support and remain a presence of help in these regions.

For the Community: We pray for all whose lives have been improved by the Nineveh SEED Programme. Grant them stability and the dignity to remain and rebuild within their own ancestral lands.

For Sustainable Innovation: We pray for the solar engineering programme in Teleskof. Bless the partnership with Friends Of Youth Forum, that it may provide skilled employment and transformative, locally-owned opportunities for engineers and technicians.
